

MAPLE BROOKE NEIGHBORHOOD ASSOCIATION, INC.

RULES & REGULATIONS

The following are easy to read summaries of the official Rules and Regulations (R&R's) for Maple Brooke (MB or MBBOD--Maple Brooke Board of Directors), which are exceptions to the Autumn Woods Community Association Rules and Regulations, that have been approved by the Maple Brooke Board of Directors on April 20, 2011. Some of these differ from the Master Board R&R's as they are specific to the Maple Brooke Neighborhood Association through years of enforcement and tradition.

ARC

The ARC Rules are extremely important to keep our Neighborhood consistent. No construction, site work, exterior alteration or modification, no addition of planters, sculptures, benches, tables furniture or "chotkis", and no plantings or removal of plants, trees or shrubs shall take place without prior written approval by the Maple Brooke Board (MBBOD) and Collier County where required. An ARC request must be submitted to the Property Manager for the MBBOD's approval. Contact the Property Manager for the MB ARC form. The Owner will be informed if County approval is also required.

Owner Landscaping Guidelines

Approved November 12, 2002 by the Maple Board of Directors, Updated 2011

1. Plantings are allowed only within the original planting beds, except with written ARC approval of the MBBOD to extend existing planting beds or add new beds. Owners are responsible for replacement of any dead or diseased plants that have been planted themselves or by the Developer.
2. All plants and planting areas existing prior to development are the responsibility of the individual homeowner to replace and maintain.
3. No additional plantings are allowed which might result in additional cost to the Association, such as painting, pruning or lawn/bed care.
4. Annual flowers are allowed in existing plant beds without Board approval.
5. Shrubs, trees and perennials require written approval as to type, location, quantity and size, unless of types found in the original planting beds.
6. Vining plants must be grown on an approved trellis and not allowed to attach themselves to the building or roof. They may be removed for damage for exterior maintenance, such as power-washing and painting, without liability to the Association.
7. In no case will exotic or invasive plants or trees, including citrus trees, or those which may negatively affect the water table or the buildings or roofs, be acceptable or approved by the Board. If plants are on the County's list of banned or unapproved trees/plants, they will not be allowed by the MBBOD.
8. Any and all damage to grounds, lawns, landscaping or common areas caused by homeowner plantings shall be the sole responsibility of the homeowner.
9. Plantings in pots do not require Board approval, provided there are not more than 3-5 pots. Pots shall be natural in color or terracotta and not larger than 18" in diameter.

10. Modification or removal of any native plants, such as slash pine trees, native palms, live or laurel oak trees or palmettos shrubs, requires Board approval first, then County permit and approval.
11. The Association will trim palmettos or palms if they are intruding for ingress and egress and if palmettos are in contact of a structure. Unit owners may trim at their expense with Board approval.
12. Any replacement plantings, sod, palms, trees or shrubs installed by the Owner or the Association will be the responsibility of the Owner to water-in with their own water source until established. The Association will not re-plant a second time, but may require the owner to do so immediately at the Owner's cost and responsibility.
